## CURRENT SUPPORT MEMORANDUM

COMMUNIST CHINA TO EXPORT ESTIMATED 1.8 MILLION TONS  
OF CEMENT TO THE USSR IN 1958

THIS DOCUMENT CONTAINS CODE WORD MATERIAL  
OFFICE OF RESEARCH AND REPORTS

CENTRAL INTELLIGENCE AGENCY

This report represents the immediate views of the  
originating intelligence components of the Office  
of Research and Reports. Comments are solicited.

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws, US Code Title 18, Sections 793, 794, and 798. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States.

It is to be seen only by US personnel especially indoctrinated and authorized to receive COMMUNICATIONS INTELLIGENCE information; its security must be maintained in accordance with COMMUNICATIONS INTELLIGENCE REGULATIONS.

No action is to be taken on any COMMUNICATIONS INTELLIGENCE which may be contained herein, regardless of the advantages to be gained, unless such action is first approved by the Director of Central Intelligence.

**TOP SECRET**

**TOP SECRET EIDER****COMMUNIST CHINA TO EXPORT ESTIMATED 1.8 MILLION TONS  
OF CEMENT TO THE USSR IN 1958**

25X1D1a

Communist China plans to ship 300,000 tons of cement to the USSR in the first quarter of 1958. 1/ Based upon the increase of annual shipments and the relationship of first quarter shipments to total annual shipments in 1956 and 1957 it is estimated that China will ship about 1.8 million tons of cement to the USSR in 1958. 2/ This is an increase of 50 percent above the level of 1957 shipments and more than 20 percent of the 7.65 million tons production planned in 1958. 3/

Chinese Communist exports of cement to the USSR since 1953 are reflected as follows: 4/

<u>Year</u>	<u>Exports</u> <u>(1,000 Metric Tons)</u>
1954	260.0
1955	350.0
1956	796.7
1957	1,217.8
1958 (estimate)	1,800.0

The planned increase in both production (6.7 million tons in 1957 to 7.65 million tons in 1958) and exports of cement in 1958 is supported by the current construction program for new cement plants in China. The 950,000 ton increase needed to meet the 1958 production target can be achieved by the output of the Yungteng (capacity: 450,000 tons) and Kunming (capacity: 360,000 tons) plants, completed in the latter part of 1957; the plant at Urumchi (capacity: 150,000 tons), which is expected to start operation shortly; and that part of plant capacity at Tatung--estimated at 100,000 tons--not realized in 1957 because the plant was not commissioned until March 1957. 5/ It also is possible that at least one of three other plants currently under construction at Sian (capacity: 680,000 tons), Loyang (capacity: 450,000 tons), and Machiaopa (capacity: 360,000 tons) in Szechwan may be completed during the year. 6/

The cement shortage of 1956 was alleviated in 1957 and--based on the announcement that investment in capital construction in 1958 is to increase about 18 percent above the level attained in 1957 7/--it appears that 1.8 million tons of cement will be available for export to the USSR in 1958.
